AUTO RACES ARE NOW ASSURED.

Plans For Great Automobile, Motor Cycle and Aeroplane Carnival Going Forward.

THE BEST EVER PROMISED.

* * *

The Daytona Automobile Racing Carnival for the year 1909 is an assured fact, and its inception marks a new era in the circle history of this city, which nature has so bounteously adorned with magic beauty of scenic and climate, ever charging ocean and incomparable beach. Such an environment must be an irresistable influence to even the humblest citizen to join hands with the most enthusiastic tourist in a unies to promote the welfare, and make absolute the future of this community. Without a unanimity of sentiment there can be no good accomplished for all. The little leaven, which the splendid and useful work of the Race Meet Committee, appointed by the Florida East Coast Automobile Association, should so enthuse the whole mass of citizens so that the sun wise sentiment, "By Daytona, for Daytona," that the timid and shrinking dollars will offer themselves as a sacrifice to the future greatness of Daytona public spirit. Pull together, citizens, and above all things, GIVE. Agitation is excellent, and must even assimilate but money gives to the races, and makes an enduring monument to local enterprise and progressiveness.

In a tel-gram just received, "Senator" W. J. Morgan, so well known by the sobriquet of "Motoring Morgan," informs his representative, F. D. Seldham, who is here in the interest of the races, that the approval and sanction of both the National Motor Car Association, the Automobile Association of America and the Automobile Club of America, which represents international motor contests that have been given, and stamps the Daytona races with the seal of approval, and offers the assistance of all the automobile manufacturers of this country.

To assist Mr. Morgan in the planning and conduct of this speed carnival some of the most noted and experienced motor car racing experts have offered their services. The official starter will be Fred Wagner of Vanderbilt cup and Savannah grand prize fame, whose presence on the bench gives positive assurance that the races will be conducted with exactness and dispatch. WILBUR IS NOT THE MAN.

Claims That It Is Another Man The Lieutenant Is Hunting For.

WRIGHT WILL NOW SOAR AGAIN.

* * *

(By United Press)

LEMANS, France, Jan. 9.—An investigation here by a United Press correspondent discloses the fact that Wilbur Wright is not named as co-respondent in the divorce proceedings brought by Lieut. Conjard. Yesterday's report was based on a statement of the Lieutenant.

No action has been brought where Wright's name is mentioned, and the mention of his name is looked upon as a joke.

(By United Press)

PARIS, Jan. 9.—While confirming the report of the mention of Wilbur Wright in connection with the divorce troubles of Lieutenant Conjard, the family of Conjard today indirectly deny that there is ground for naming the American in connection with the scandal.

They assert that Wright will probably be called as a witness.

Wright regards the affair as a joke, and attributes the mention of his name in connection with the case to the fact that the real participant in the case frequented the same hotel.

Wright thinks Lieut. Conjard, who stands by the original story, will be convinced of his error before making his final move in the divorce proceedings.

Getting Close to the Czar.

(By United Press)

ST. PETERSBURG, Jan. 9—A second explosion occurred close to the Czar's palace today, according to the statements of the police. Details of the attempt to wreck the palace and kill the Czar are not given out. No one was injured.

Cotton Increase.

(By United Press)

WASHINGTON, Jan. 9.—The Census Bureau announced today that 12,470,226 bales of cotton had been ginned from the growth of 1908, as compared with 9,905,305 bales in 1907. The number of ginneries is reported as 27,388.

FREE GOVERNMENT.

A FULL FLORIDA PAGE IN PITTSBURG GAZETTE-TIMES.

* * *

Daytona Occupies Seats In The Most Coveted Corner In Box Car Letters.

The Pittsburg Gazette-Times of December 31, has a full Florida page of advertising, principally hotel, and all there is the accredited advantage in being put at the "top of the column." Daytona comes off with the lion's share. She and her suburbs absorb five of the seven columns and occupy considerably more space than any other Florida town and it shows up to bolder type.

Pittsburg and Pennsylvania people have been conspicuous in building and in wintering in Daytona and the old keystone State has stamped herself indelibly upon the Daytona district. Such advertising will help to augment the Pennsylvania delegation and the new comers tempted this way by a judicious use of printers' ink measure up to the high standard of citizenship of those here and among the Daily News can not too highly commend the local bonifaces for extending the hellation.

Among the representative Pennsylvanians who winter here may be noted John W. Shields, Dr. J. A. Schneider, E. M. Clark, H. C. Shepherd, C. A. Meiler, H. B. Hotter, John M. Shortly, Ralph Ely, H. M. Norton and others who help to make the city what it is.

All these advertising schemes pay, but the best advertisement is a "pleased patron," so let Daytona see to it that everything is up to the sportiness on when the clutter starts.

Clean up the streets and pavements, patch the roads, encourage a diversity of amusements, limit the automobile races—to a score of other things which will help to keep the city ahead of the procession.

"JOE" COBURN BOOSTS DAYTONA AND SEABREEZE

In His Swing Around The Country And Keeps Matchless Cities In Lime Light.

Mrs. J. A. Coburn and daughter, Laura, returned to Daytona, Jan. 7th, after a two weeks' trip throughout the State with her husband, Manager J. A. Coburn, of "Coburn's Greater Minstrels, which appear at Williams Opera House, Seabreeze Jan. 12th and 13th. Mrs. Coburn is very enthusiastic over her reception at the various points visited and the many courtesies extended them by the friends of herself and husband.

Manager "Joe" Coburn is not only a well known theatrical manager, but also a popular and representative Elk and his friends are legion. It is rumored that many friends here will induce him to transfer his membership to the local lodge B. P. O. E., of Daytona. As "Joe" is one of the greatest boosters for Daytona and Seabreeze on the road, this would not be a difficult matter to accomplish. Mrs. Coburn states that her husband was badly disappointed that he could not reach Daytona in time for the initiation of the new lodge. He is expected to proceed immediately hereafter, however, and will remain at the home of Seabreeze until Jan. 14th.

AUTOMOBILE SERVICE TO PALM BEACH.

This Is Good News If So, But The Daily News Doesn't Guarantee Service.

PUT ON BY HOTEL COMPANY.

* * *

The Jacksonville Metropolis is authority for the statement that the Florida East Coast Hotel Company is about to inaugurate an automobile service between Ormond, Daytona and Palm Beach, and while the Daily News wishes the enterprise success it hardly thinks such a scheme practicable under the present condition of certain stretches of roads between here and the charming city on Lake Worth.

This is what the Metropolis says:

"A regular line of automobile service between Ormond, Daytona and Palm Beach is about to be inaugurated by the Florida East Coast Hotel Company, for the benefit of the guests of the hotels of those resorts. The service will be furnished by three 60-horsepower A. L. C. cars, which were shipped to them a few days ago by the American Locomotive Company.

"The cars were selected after a competitive investigation of various makes. It is said that one consideration of importance was the exclusive fact that a direct drive on both the third and fourth speeds in the A. L. C. cars, which will enable the chauffeurs in the early mails to slip from the highest speed into the next one lower and still be on a direct drive."

Still Looking for Carmichael.

(By United Press)

PORT HURON, Mich., Jan. 8—Sheriff's county authorities are using their energies in order to locate the Rev. J. H. Carmichael. A description of the missing man was sent broadcast this morning. The police are proceeding on the theory that Carmichael was murdered. Evidence is accumulating to show that Carmichael killed his child in a battle in the church, after a quarrel. Developments are looked for today.

TITUSVILLE, MEET US HALF WAY.

A First-rate Road From Daytona To Oak Hill—Why Not On To Brevard's Capitol?

BE SOCIABLE AND REACH OUT.

* * *

Gus Grosjean, chauffeur for E. H. Hotchkiss drove Mr. Hotchkiss and a friend down beyond Oak Hill, thirty miles distant, and returned before five o'clock, leaving after two o'clock. They found the road soft in many places and had to slow up for such spots. This was pretty good time for a sixty mile run over these roads.

It is only about twenty-two miles from Oak Hill to Titusville and as building material is abundant and cheap down that way it seems as if Brevard might reach out a friendly hand and greet Volusia, who has already about reached the limit in road extension south.

Here is one of Daytona's touring cars making a greater distance than from Daytona to Titusville is considerably less than three hours, since a 20-minute stop was made at the Oak Hill end, and if the gap were completed to the Brevard capital many Daytonians would enjoy the spin down to Titusville, and they would give the old burg a touch of Daytona's speed and spirit.

Titusvillians have lots of friends up this way who would like to exchange visits with them, but so long as they surround themselves with barriers as insurmountable as was the Chinese Wall of a few centuries ago, such exchange of courtesies is impossible.

The Daily News hopes that before many more seasons roll round Daytonians may run down to Titusville for dinner, look at the fringe of green across "Bay Biscay," spin about the delightful little burg and return in the gloaming.

A First-rate Road From Daytona To Oak Hill—Why Not On To Brevard's Capitol?

BE SOCIABLE AND REACH OUT.

Gus Grosjean, chauffeur for E. H. Hotchkiss, drove Mr. Hotchkiss and a friend down beyond Oak Hill, thirty miles distant, and returned before five o'clock, leaving after two o'clock. They found the road soft in many places and had to slow up for such spots. This was pretty good time for a sixty mile run over these roads.

It is only about twenty-two miles from Oak Hill to Titusville and as building material is abundant and cheap down that way it seems as if Brevard might reach out a friendly hand and grasp Volusia, who has already about reached the limit in road extension south.

Here is one of Daytona's touring cars making a greater distance than from Daytona to Titusville in considerably less than three hours, since a 20-minute stop was made at the Oak Hill end, and if the gap were completed to the Brevard capital many Daytonians would enjoy the spin down to Titusville, and they would give the old burg a touch of Daytona's speed and spirit.

Titusvillians have lots of friends up this way who would like to exchange visits with them, but so long as they surround themselves with barriers as insurmountable as was the Chinese Wall of a few centuries ago, such exchange of courtesies is impossible.

The Daily News hopes that before many more seasons roll round Daytonians may run down to Titusville for dinner, look at the fringe of green across "Bay Biscay," spin about the delightful little burg and return in the gloaming.

THE PITCHFORK AND THE BIG STICK

In Action Will Enliven The Senate and White House Atmosphere On Monday.

(By United Press.)

WASHINGTON, Jan. 9.—Senator Tillman is today preparing replies to the President's letter to Senator Hale. The reply will take the form of a speech Monday in the Senate. It is expected that the "Pitchfork" Senator will attack the Chief Executive bitterly.

Senator Tillman said today that some important documents bearing on his reply had been taken from his desk. He does not charge that his desk was broken into but merely states that the papers are now missing.

JEM DRISCOLL, NEW PUGILISTIC STAR.

Not many of the pugilists that England has sent to these shores in recent years has possessed anything like championship class, but Jem Driscoll, the little Welshman who came over unheralded a few months ago, is an exception to the rule. Driscoll's fistic ability approaches the phenomenal. He began mowing his way to fame and fortune as soon as he landed in this country at the expense of the little pugilists of the east.

The Chinese Hoe.

The Chinese farmer stands second to none in all the world. This he all the more remarkable since he has really no first implements with which to work the marvels he produces. His only implements are the hoe, the plow and the harrow. Beyond these the Chinese farmer never dreams of desiring any other. The first of these tools seems never to be out of his hands, for it is the one upon which he relies the most and is his most effective implement. It really takes the place of the spade in England, though the latter is never put to such extensive and general use as the hoe. The Chinaman can do all filling with it but make it speak. A farmer well on in years can easily be recognized amidst a number of workmen by the curve his handle have taken from holding the hoe in the many years of toil in the fields. With it, if he is a poor man and has no oxen for the use, the ground he turns up, and with which he is going to plant his crops, and with it he deftly and with a turn of his wrist levels out the surface so that it is made ready for the seed. With a broad bladed hoe he digs to the bottom of a stream or of a pond, draws up the soft mud that has gathered there and, with a dexterous flirt, flings the dripping load on to its field ready to harrow its richness of this new deposit.—London King.

Their Place.

One day an old gentleman who found the Java village at the World's fair worth something at length confided to a young man standing near: "It's a wonderful show to watch," he said, "but I may say I should be better out if I were to bathe before noon. My place is a busy one, and it's truth and you can't justly know where days is. Now, where is it?"

"Oh," said the young man, with the assured air of one who knows, "just a little way from Moscow."—Argonaut.

Seabreeze News

SEABREEZE, Jan. 9.—Mr and Mrs. Addison Cornell and friend Miss L. Smith, of Ypsilanti, Mich., arrived the first part of the week and are pleasant sojourners with Mr and Mrs. R. C. Watterson on Halifax avenue.

Dr. Bowman's condition yesterday was reported as still very serious. Minister at Wassington, D. C., was telegraphed for by Miss Bowman and the reply received that either she or her husband would start immediately for Seabreeze.

Major Russell is gradually improving and the family are hopeful of a complete recovery within a reasonable time.

Charley and Reginald Fleet, sons of Col. A. F. Fleet, who with his wife is comfortably settled at the Red Cottage through J. C. Butler, the real estate man, arrived on the morning train from Atlanta. The boys are good golf players and are delighted to be unreservedly located for the links.

Mrs. J. A. Coburn and daughter Lewis, arrived from the south yesterday forenoon. They spent part of their holidays with Mr. Coburn at Jacksonville and have since been touring the state with him and have had a most enjoyable vacation.

Mr. Watterson who made a short business trip to Miami this week returned yesterday and joined his family at The Mayfield. By luck with quite an unlucky accident while in Miami to a fall from a bicycle, from the effects of which he has not yet recovered.

Dr. Howard and Mesdames Boehm of Sorrento, Fla., arrived yesterday and will spend two or three weeks at Arthur Bridges's home on Pinewood avenue.

Miss Willie McChesney, who is spending the winter with her sister, Mrs. Watterson, at The Mayfield, has an interesting heirloom in the silk and sword her grandfather wore at the battle of Waterloo.

The Glenwood has been subleased by A. B. Clark to Chas. F. Bowles of Maine. Mr. Bogle is here with his wife, temporarily located at The Gables, Daytona. He takes formal possession of The Glenwood on the 20th inst. The Harry G. Wilson Co. re-leased the property.

J. A. Coburn of Coburn's greater minstrels is expected to arrive today and join his family at their pretty home on Valley street.

Her Luck.

By a strange coincidence a much married woman lost three husbands in succession through fatal accidents in the mine. Naturally her case excited much interest, and she had many sympathetic callers, to all of whom she made the same reply.

"Ah, yes, it's very hard," she said, "but in the midst of my sorrow I've always had something to be thankful for. None o' my husbands lived long after I'd insured 'em, so some poor souls' husbands die!"—London Graphic.

Doings at Daytona Beach

DAYTONA BEACH, Jan. 9.—The Abigail Bartholomew Chapter D. A. R. held its regular monthly meeting at the home of Mrs. Chas. Beach, on Halifax avenue, Wednesday afternoon, January 8th. There was a good attendance and several visitors were present. After the regular routine of business, the program opened by a paper on Rhode Island, by Miss Cross. The paper was most admirable, showing deep thought and interest in the subject. A paper on Connecticut by Mrs. Fichter was read by the historian of the Chapter, Mrs. Charles H. Raynor, in the absence of Miss Farmer. News from the Coleman Geology was read by Mrs. Harriet Coleman Gardiner. The social hour followed, during which dainty refreshments were served.

The next meeting of the Chapter will be held at the home of Mrs. Wm. Rinehart, on Peninsula drive. Any members desiring to invite a visiting "Daughter" will kindly notify the hostess of the day not later than 10 a. m. on the day the Chapter meets.

G. H. Moore, Mrs. Field's father, who is a well-known hotel man here this week, visiting his daughter, enroute to Wilmington, N.C., where he accepts a position with a large green house concern.

Mr. and Mrs. Martin and the former's sister, Mrs. Seaman, who have spent two months past at Surf Crest, left yesterday to tour the State.

Mrs. G. A. Johnson was visiting in the city yesterday.

Peter Sooner and Floyd Grant, of New York, arrived this week, and will spend some time here.

There was something doing in the Mayor's Court yesterday afternoon, when the case of Daytona Beach vs. Chas. G. Smith was called for two offenses, viz: First, running an automobile at a greater speed than 8 miles per hour, and second, having water pipe without any permit. Bert Fish represented the defendant, and H. W. Pope, Daytona Beach. The Mayor's verdict for first offense was $10 and costs. The trial for second offense had not been concluded at last obtainable information. The case excited a good deal of local interest, and the City Hall was well crowded when the case was called. Before the Mayor's bailiff, the friends of Mr. Smith are quite confident he will appeal the case. Mr. Smith, who has a good water system at his cement block, on Seabreeze, was laying pipe to furnish water for the new Burton cottage, which is just being built on Palmetto and Seabreeze avenues.

Sartorial Monstrosities.

There are men, we need scarcely say who, under such sartorial liberties as almost drive one to despair. We have to tolerate such monstrous combinations as brown boots and black coats, silk hats and lounge suits and frock coats and bowlers, and we are even serving ourselves to the expectation of seeing a kilted highlander in a silk "topper."—London Outfitter.

Seabreeze News

SEABREEZE, Jan. 9.—Mr. and Mrs. Addison Corryell and friend Miss L. Smith, of Ypsilanti, Mich., arrived the fore part of the week and are pleasant sojourners with Mr and Mrs. R. C. Waterson on Halifax avenue.

Dr. Beekman's condition yesterday was reported as still very serious. His sister at Washington, D. C., was telegraphed for by Miss Beekman and the reply received that either she or her husband would start immediately for Seabreeze.

Major Russell is gradually improving and the family are hopeful of a complete recovery within a reasonable time.

Charley and Reginald Fleet, sons of Col. A. F. Fleet, who with his wife is comfortably settled at the Red Cottage through J. C. Butler, the real estate man, arrived on the morning train from Atlanta. The boys are good golf players and are delighted to be conveniently located for the links.

Mrs. J. A. Coburn and daughter, Leota, arrived from the south yesterday forenoon. They spent part of their holidays with Mr. Coburn at Jacksonville and have since been touring the state with him and have had a most enjoyable vacation.

Mr. Walthous who made a short business trip to Miami this week, returned yesterday and joined his family at The Mayfield. He met with quite an unlucky accident while in Miami by a fall from a bicycle, from the effects of which he has not yet recovered.

Dr. Howard and Mesdames Borden of Sorrento, Fla., arrived yesterday and will spend two or three weeks at Arthur Budgen's home on Pinewood avenue.

Miss Millie McChesney, who is spending the winter with her sister, Mrs. Walthous, at The Mayfield, has an interesting heirloom in the kilt and sword her grandfather wore at the battle of Waterloo.

The Glenwood has been subleased by A. B. Clark to Chas. F. Bowie of Maine. Mr. Bowie is here with his wife, temporarily located at The Gables, Daytona. He takes formal possession of The Glenwood on the 20th inst. The Harry G. Wilson Co. re-leased the property.

J. A. Coburn of Coburn's greater minstrels is expected to arrive today and join his family at their pretty home on Valley street.

Her Luck.

By a strange coincidence a much married woman lost three husbands in succession through fatal accidents in the mine. Naturally her case excited much interest, and she had many sympathetic callers, to all of whom she made the same reply.

"Ah, yes, it's very hard," she said, "but in the midst of my sorrow I've always had somethin' to be thankful for. None o' my husbands lived long after I'd insured 'em, as some poor souls' husbands do!"—London Graphic.

Doings at Daytona Beach

DAYTONA BEACH, Jan. 9.—The Abigail Bartholomew Chapter D. A. R. held its regular monthly meeting at the home of Mrs. Chas. Beach, on Halifax avenue, Wednesday afternoon, January 6th. There was a good attendance, and several visitors were present. After the regular routine of business, the program opened by a paper on Rhode Island, by Miss Cross. The paper was most admirable, showing deep thought and interest in the subject. A paper on Connecticut by Miss Pitcher, was read by the historian of the Chapter, Mrs Charles H. Raynor, in the absence of Miss Pitcher. Notes from the Coleman Genealogy was read by Mrs. Harriet Coleman Gardiner. The social hour followed, during which dainty refreshments were served.

The next meeting of the Chapter will be held at the home of Mrs. Wm. Ronald, on Peninsula drive. Any members desiring to invite a visiting "Daughter" will kindly notify the hostess of the day not later than 10 a. m. on the day the Chapter meets.

G. H. Moores, Mrs. Field's father, who is a well-known florist, was here this week, visiting his daughter, enroute to Winchester, Ky., where he accepts a position with a large green house concern.

Mr. and Mrs. Martin and the former's sister, Mrs. Seaman, who have spent two months past at Surf Crest, left yesterday to tour the State.

Mrs. G. A. Johnson was visiting in the burg yesterday.

Peter Kooker and Floyd Otman, of New York, arrived this week, and will spend some time here.

There was something doing in the Mayor's Court yesterday afternoon, when the case of Daytona Beach vs. Clark G. Smith was called for two offenses, viz: First, resisting an officer; second, laying water pipe without city permit. Bert Fish represented the defendant, and F. W. Pope, Daytona Beach. The Mayor's verdict for first offense was $10 and costs. The trial for second offense had not been concluded at last obtainable information. The case excited a good deal of local interest, and the City Hall was well crowded when court opened. Whatever the Mayor's findings, the friends of Mr. Smith are quite confident he will appeal the case. Mr. Smith, who has a good water system at his cement block, on Seabreeze, was laying pipe to furnish water for the new Austin cottage, which is just being built on Palmetto and Seabreeze avenues.

Sartorial Monstrosities.

There are men we meet every day who take such sartorial liberties as almost drive one to despair. We have to tolerate such monstrous combinations as brown boots and frock coats, silk hats and lounge suits and frock coats and bowlers, and we are even nerving ourselves to the expectation of seeing a kilted highlander in a silk "topper."—London Outfitter.

The Modern Seven Wonders
Daytona's Incomparable Ocean Beach.
One of Daytona's crowning glories is her incomparable beach. No one who ever set foot upon its smooth, packed sands; no one who ever pedaled his cycle over its expanse; no one who ever drove a prancing pair of horses and listened to the popping of their steel shoes upon its asphaltum-like face; no one who ever steered a high-power automobile down the broad stretch of wave-washed and surf-packed sand but realized that it is a world-beater, a world-wonder. Go stand upon this wide speedway and see the happy souls ply by in joyous mood, and answer whether this is not one of the seven modern wonders.
The Placid, Pellucid Halifax River.
Where think you is water with more picturesque surroundings? Nearly a mile wide, fringed with tropical vegetation, artistic cottages with roomy verandas looking out upon her bosom, gamey food fishes in countless numbers beckoning, as it were, to those with rod and reel; her bosom flecked with duck and coot and snowy-winged sea birds, which sit aloof as if for the sport of bobbing upon her waves; watch that lubberly old white headed pelican perch a fat mullet, and that fish hawk circling upward with his floundering load be snatched from the water.
See the beautiful launches, spick and span, their banquets and lockers bulging with refreshments both solid an liquid ready for a cruise upon her beautiful surface. Take out your field glass and sweep the river from Ormond bridge to Ponce Park light house, then say whether the Halifax isn't a thing of beauty and a joy forever, and one of the modern wonders.
The Enchantingly Picturesque Ridgewood.
Ridgewood avenue is upon the crest of a broad ridge, straight as the crow flies, and the wide-spreading branches of the heavy-trunked live oaks extend their giant arms across this magnificent vista, forming an arch, and from these extending arms great festoons of Spanish moss sway in the trade winds from tropic seas fan them. Looking straight ahead down this white shell street one has the impression of a fairy path with ethereal draperies, but as you move along and cast an eye first to the right and then to the left you see distinguished cottage homes in the most delightful settings.
See the glistening leaf of the grand magnolia which nature has vanished as no artist's brush ever could; and the cabbage palms with their burdens of showy fruit and swaying palms; see the lovely holly with its exquisite berry; and th climbing vines running riot in the trees see the cryptogamous forms which gain a foothold on the great oaks and the stately palms, and surely you will join in the chorus and say that this is a world wonder for beauty.
Surpassing Beauty in Our Cottage Homes.
No one of Daytona's attractions, perhaps commands more nearly universal attention and praise than does the artistic cottage. The owners of these charming villas hail from every corner of the country and they bring their own architectural plans and build upon them, and as the architecture of one section of the country differs from the architecture of another so do our homes differ in outward appearance and structural beauty from one another. There are no monotonous rows of strikingly similar buildings but the eye, as it sweeps by, is treated to a kaleidoscopic change which keeps the mind wondering "What next?"
It is not only the exterior of many of these homes that elicits attraction; within they are models of convenience, and the finish and furnishing give evidence of the elegance and cultivation of those who worked it all out. Indeed it is the interior arrangement and the artistic furnishing and shading, more than the exterior appearance that give a surpassing charm to Daytona homes. This feature justly merits prominence as another number four.
Streets and Pavements the Most and Best.
Why the Architect of the Universe chose to give to Daytona the most admirable, the most picturesque natural setting of all the cities of the South is not revealed but that such is a fact must be apparent to the most superficial observer. With such lavish wealth of natural beauty it became an easy thing for the hand of man to give the finishing touches which have brought out the colors and outlines of the big picture.
Man did all this in the laying out of the streets with their wide margins of parkage. The entire city becomes a great park, with driveways interlocking, miles upon miles of driveways as good as to attract motorists from all over the continent.
And as for pavements, pavements that look and act like granite,—there else between the eastern and western seas are so many miles in proportion to inhabitants! The pavement question stands with the street as one of the chief drawing cards. Till some unheard of plane reports more and better, Daytona throws down the gauntlet to the world.
Squirrels, Flowers, Birds and Fruits.
Whatever one's shortcomings and however indifferent or yet callous one may be to many things, the mere mention of "squirrels and flowers, birds and fruits" will send a thrill that is reflected in distended pupils and pricked ears.
For every visitor with a spare "greenback" there is a bounty ready to come out and accept your gift. He will sit bolt upright and gaze into the meat, casting furtive, saucy glances at you meanwhile.
Flowers! Usually fresh and blooming the year 'round. You are reminded of Goldsmith's couplet where—
Smiling spring its reffleet visit paid
And summer's lingering blossoms are delayed.
In one yard roses of variegated hues predominate, another household have a penchant for the poinsettia and the premises are ablaze; another is hidden in a jungle of tall cane. Variety is the spice of life and here is where you find it.
The birds flit in, and with their joyous notes help to give fullness and symmetry to the picture.
As for fruits, choice citrus fruits, Daytona yields the palm to none for quality and quantity per acre. There are scores of citrus groves in proximity to the city, branches bending to the earth with their burdens of luscious golden globes, which for beauty, prolificacy and all desirable qualities would truly astonish.
The Fastest Autos And The Finest Out.
The seventh world wonder, do you ask? Come, whether from Rascori or from Maine, from Kalamazoo or from Timbuktoo and you will be "shown." Here is where world's records for speed are broken with every returning season. Autos the biggest, the fastest and the finest are on daily parade and the big show is as free as the pure artesian water from the thousand flowing wells. It is a continuous show with constantly shifting scene.
Everything goes, from a 24-horsepower up to a 200-horsepower, and all degrees of speed from a canter to a two-mile-a-minute clip. You will probably catch the spirit and when you do the roads and the beach are yours. The Florida sunshine is free, the balmy ocean breezes are free, the bone and sinews and muscles are free, the sparkling mountain water is free and you will have to go down in your wallet only for cash for the auto and fuel and board.
This is no fanciful picture. It's all here. It is drawing other thousands and holding them enthralled, as well as charm and hold you. Come and see.

NOTED WOMAN LECTURER TO SPEAK AT ARMORY.
Rev. Caroline Bartlett Crane, The Noted Civic Improvement Worker, Coming.
The Rev. Caroline Bartlett Crane will deliver a free stereopticon lecture on "Civic Improvement," at the Armory Thursday evening, January 14th, at 8 o'clock. Mrs. Crane comes to Daytona under the auspices of the "Civic Department" of the Palmetto Club. Mrs. Crane is a very gifted and practical speaker. She has world-wide reputation as the foremost worker in "Civic Improvement," and has spoken before many of the largest organizations in the East and West, and so far south as Virginia. She is a most gifted and practical speaker, and has an admirable way of presenting her ideas, having been a student along that line, she never misses the mark in pointing out the need as well as the remedy.
Let every public spirited citizen of Daytona interested as he or she is in the future of this rapidly increasing municipality not fail to hear this lecture. Local views will be a feature of this lecture. A musical program will be given after the lecture. Come one, come all, and help the good work along.
Editor Walton to Build.
Some time ago the Gazette-News made the announcement that Chas H. Walton the handsome and dignified editor of the East Coast Advocate, Florida's breezy pink paper, would in many months be himself northward and return to the Land of Flowers bringing a winsome flower from the Northland to transplant upon the Florida soil. It has not yet been in the Gazette-News privilege to make announcement of the culmination of the predicted happy event, but looking toward such announcement and culmination of the predicted happy event but looking toward such announcement and consummation of it can be said that Editor Walton has just let the contract for a handsome, modern 2-story concrete residence on a picturesque eminence overlooking the beautiful Indian river.
Editor Walton is well known on the East Coast and has a number of Daytona friends who extend congratulations in advance.
Husbands to Burn.
The elderly spinster in the rear of the drawing room car had no more than settled herself when her attention was attracted to a woman a little farther front who was garbed in the deepest mourning. As Miss Spinster adjusted her nose grabber glasses for a better inspection of the case in widow's weeds she saw the conductor lean over and converse with the mourning for several minutes.
When the conductor got back to her seat taking the passenger's tickets Miss Spinster was consumed with curiosity about the weeds in question.
"Conductor," she asked in her sweetest tones, "what's the trouble with the lady up there in widow's weeds?"
"Oh, that's Mrs. Gotrich," replied the obliging conductor. "She's just taking her third husband out to a cemetery."
"Oh, how dreadful!" exclaimed Miss Spinster. And then in a forlorn voice she added:
"And just think of it! Here I am past fifty and never had a husband in my life, while that woman up there has them to burn!"—New York Times.

Go stand upon this wide speedway and see the happy souls flit by in joyous mood, and answer whether this is not one of the seven modern wonders.

The Placid, Pellucid Halifax River.

Where think you is water with more picturesque surroundings? Nearly a mile wide, fringed with tropical vegetation, artistic cottages with roomy veranda's looking out upon her bosom, gamey food fishes in countless numbers beckoning, as it were, to those with rod and reel; her bosom flecked with duck and coot and snowy-winged sea birds, which sit about as if for the sport of bobbing upon her waves; watch that lubberly old white headed pelican pouch a fat mullet, and that fish hawk struggling upward with his floundering load he snatched from the water.

See the beautiful launches, spick and span, their hampers and lockers bulging with refreshments both solid an liquid ready for a cruise upon her beautiful surface Take out your field glass and sweep the river from Ormond bridge to Ponce Park light house, then say whether the Halifax isn't a thing of beauty and a joy forever, and one of the modern wonders.

The Enchantingly Picturesque Ridgewood.

Ridgewood avenue is upon the crest of a broad ridge, straight as the crow flies, and the wide-spreading branches of the heavy-trunked liveoaks extent their giant arms across this magnificent vista, forming an arch, and from these extended arms great festoons of Spanish moss sway as the trade winds from tropic seas fan them. Looking straight ahead down this white shell street one has the impression of a fairy path with elfish draperies, but as you move along and cast an eye first to the right and then to the left you see distinguished cottage homes in the most delightful settings.

See the glistening leaf of the grand magnolia which nature has varnished as no artist's brush ever could; and the cabbage palms with their burdens of showy fruit and swaying palms; see the lovely holly with its exquisite berry; see th climbing vines running riot in the trees see the cryptogamons forms which gain a foothold on the great oaks and the stately palms, and surely you will join in the chorus and say that this is a world wonder for beauty.

Surpassing Beauty of Our Cottage Homes.

No one of Daytona's attractions, perhaps commands more nearly universal attention and praise than does the artistic cottage. The owners of these charming villas hail from every corner of the country and they bring their own architectural plans and build upon them, and as the architecture of one section of the country differs from the architecture of another so do our homes differ in outward appearance and structural beauty from one another. There are no monotonous rows of strikingly similar buildings but the eye, as it sweeps by, is treated to a kaleidoscopic change which keeps the mind wondering "What next?"

It is not only the exterior of many of these homes that rivets attention; within they are models of convenience, and the finish and furnishing give evidence of the elegance and cultivation of those who worked it all out. Indeed it is the interior arrangement and the artistic furnishing and shading, more than the exterior appearance that give a surpassing charm to Daytona homes. This feature justly merits prominence as wonder number four.

Streets and Pavements the Most and Best.

Why the Architect of the Universe chose to give to Daytona the most admirable, the most picturesque natural setting of all the cities of the South is not revealed but that such is a fact must be apparent to the most superficial observer. With such lavish wealth of natural beauty it became an easy thing for the hand of man to give the little finishing touches which have brought out the colors and outlines of the big picture.

Man did all this in the laying out of the streets with their wide margins of parkage. The entire city becomes a great park, with driveways intersecting, miles upon miles of driveways so good as to attract motorists from all over the continent.

And as for pavements, pavements that look and act like granite,—where else between the eastern and western seas are so many miles in proportion to inhabitants? The pavement question stands with the street as one of the chief drawing cards. Till some unheard-of place reports more and better, Daytona throws down the gauntlet to the world.

Squirrels, Flowers, Birds and Fruits.

Whatever one's shortcomings and however indifferent or eve callous one may be to many things, the mere mention of "squirrels and flowers, birds and fruits" will send a thrill that is reflected in distended pupils and pricked ears.

For every visitor with a spare "goober" there is a bunny ready to come out and accept your gift. He will sit bolt upright and gnaw into the meat, casting furtive, saucy glances at you meanwhile.

Flowers! Usually fresh and blooming the year 'round. You are reminded of Goldsmith's couplet where

Smiling spring its earliest visit paid
And summer's lingering blossoms are delayed.

In one yard roses of variagated hues predominate, another household have a penchant for the poinsettia and the premises are aflame; another is hidden in a jungle of tall cane. Variety is the spice of life and here is where you find it.

The birds flit in, and with their joyous notes help to give fullness and symmetry to the picture.

As for fruits, choice citrus fruits, Daytona yields the palm to none for quality and quantity per acre. There are scores of citrus groves in proximity to the city, branches bending to the earth with their burdens of luscious golden globes, which for beauty, prolificacy and all desirable qualities would truly astonish.

The Fastest Autos And The Finest Out.

The seventh world wonder, do you ask? Come, whether from Missouri or from Maine, from Kalamazoo or from Timbuktoo and you will be "shown." Here is where world's records for speed are broken with every recurring season. Autos the biggest, the fastest and the finest are on daily parade and the big show is as free as the pure artesian water from the thousand flowing wells. It is a continuous show with constantly shifting scene.

Everything goes, from a 2-horsepower up to a 200-horsepower, and all degrees of speed from a canter to a two-mile-a-minute clip. You will probably catch the spirit and when you do the roads and the beach are yours. The Florida sunshine is free, the balmy ocean breezes are free, the birds and squirrels and flowers are free, the sparkling fountain water is free and you will have to go down in your wallet only for coin for the auto and bed and board.

This is no fanciful picture; it's all here. It is drawing other thousands and holding them enthralled, it will charm and hold you. Come and see.

NOTED WOMAN LECTURER TO SPEAK AT ARMORY.

Rev. Caroline Bartlett Crane, The Noted Civic Improvement Worker, Coming.

The Rev. Caroline Bartlett Crane will deliver a free stereopticon lecture on "Civic Improvement," at the Armory Thursday evening, January 14th, at 6 o'clock. Mrs. Crane comes to Daytona under the auspices of the "Civic Department" of the Palmetto Club. Mrs. Crane is a very gifted and practical speaker. She has world-wide reputation as the foremost worker in "Civic Improvement," and has spoken before many of the largest organizations in the East and West, and as far south as Virginia She is a most gifted and practical speaker, and has a an admirable way of presenting her ideas, having been a student along that line, she never misses the mark in pointing out the need as well as the remedy.

Let every public spirited citizen of Daytona interested as he or she is in the future of this rapidly increasing municipality not fail to hear this lecture. Local views will be a feature of this lecture. A musical program will be given after the lecture. Come one, come all, and help the good work along.

Editor Walton to Build.

Some time ago the Gazette-News made the announcement that Chas. H. Walton the handsome and dignified editor of the East Coast Advocate, Florida's breezy pink paper, would 'ere many moons hie himself northward and return to the Land of Flowers bringing a winsome flower from the Northland to transplant upon the Florida soil. It has not yet been the Gazette-News' privilege to make announcement of the culmination of the predicted happy event, but looking toward such announcement and culmination of the predicted nappy event but looking toward such announcement and corroboration of it can be made the statement that Editor Walton has just let the contract for a handsome, modern 2-story concrete residence on a picturesque eminence overlooking the beautiful Indian river.

Editor Walton is well known on the East Coast and has a number of Daytona friends who extend congratulations in advance.

Husbands to Burn.

The elderly spinster in the rear of the drawing room car had no more than settled in her seat when her attention was attracted to a woman a little farther front who was garbed in the deepest mourning. As Miss Spinster adjusted her nose grabber glasses for a better inspection of the one in widow's weeds she saw the conductor lean over and converse with her earnestly for several minutes.

When the conductor got back to her seat taking the passenger's tickets Miss Spinster was consumed with curiosity about the woman in mourning.

"Conductor," she asked in her sweetest tones, "what's the trouble with the lady up there in widow's weeds?"

"Oh, that's Mrs. Gettem!" replied the obliging conductor. "She's just taking her third husband out to a crematory."

"Oh, how dreadful!" exclaimed Miss Spinster. And then in a faraway voice she added:

"And just think of it! Here I am past fifty and never had a husband in my life, while that woman up there has them to burn!"—New York Times.

Killed in Auto Accident.

(By United Press.)

NEW YORK, Jan. 9.—Edward Colt Gilman, of Flushing, was killed and Miss Jeanette McKinne, Miss Dorothy Whittle and James Crammon badly injured in an automobile wreck early today. The occupants of the machine were thrown against a tree when a wheel of the car dropped from the axle.

A Very Hefty Shaddock.

One of the largest and finest specimens of pomelo, shaddock, grapefruit or whatever your taste and fancy may induce you to call it lies on the editorial desk. The handsome specimen was grown by J. N. Davis of Grand Rapids, Mich. at his Ridgewood home, No. 330 South.

It would remind you of a Thanksgiving pumpkin grown in the Ohio valley, measuring nearly twenty-six inches around the girth while from pole to pole it measured a little better than twenty-three inches.

The Devilfish in Action.

A naturalist who observed devilfishes in action says that he thought no more diabolical creature could be imagined. They resembled enormous bats and in following one another around in a circle raised the outer tip of one of the long whiplike fins high out of the water in a graceful curve, the other being deeply submerged. They might be seen now gliding down with a flying motion of the wings, sweeping, gyrating upward with a twisting vertical motion marvelous in its perfect grace; now they flashed white, again black, so that one would say they were rolling over and over, turning somersaults. While swimming along the two great arms or fashes of the devilfish are wholly about in constant motion, like the tentacles of a squid. When these tentacles come in contact with anything they close upon it. It is generally believed that this clasping, although at times doing considerable harm to fishermen and their boats, is largely automatic and that, upon the whole, the devilfish is timid rather than a fighter.

The Rust of Custom.

The bitterness toward innovation is just the same in an army as out of it, but perhaps with more reason. A new thing cannot possibly be accepted until it has proved itself better than that which it displaces. The first cannons were possibly rejected, and the Christian inventor took them to the Turk, who used them at the siege of Constantinople. The first firearms were bitterly opposed because they destroyed the soldierly bearing of the troops. The British navy strenuously objected to the first large guns because one charge would cost as much as one of Nelson's broadsides. Ericsson's Monitor met with more opposition in Washington than it did in Hampton Roads. At the outbreak of the civil war it is said that congress ordered the adoption of the new weapon, over the objection of the chief of ordnance, who kept a specimen of the old one by his office to show visitors how good it was.—Army and Navy Life.

Living Lights of the Sea.

One of the marine curiosities fished from the bottom of the Indian ocean by a dredging vessel chartered by the Calcutta Society of Natural History was a mammoth sea crab, which continually emitted a bright white light, similar to that seen in the spasmodic flashes of phosphorescent hardwoods kindled by the common fireflies. The oddity was captured in daytime and placed in a large tank, nothing peculiar except its immense size being noticeable in the broad glare of the tropical sun. At night, however, when all was in pitchy darkness, the crab surprised the naturalists by lighting up the tank so that all the other sea creatures, great and small, occupying the same tank could be plainly seen. When the luminous crustacean was prodded with a pole he emitted flashes of light, which enabled the experimenters to read small print, even though otherwise they were in total darkness.—London Chronicle.

He Was Guilty.

The great Irish agitator, Daniel O'Connell, was at one time defending a man accused of murder at Clonmel. The circumstantial evidence was so strong against the prisoner that the jury had already determined upon their verdict of guilty, the man supposed to have been murdered was brought into court, alive and, unhurt. The jury were desired to return their verdict at once, and they did so, but it was one of guilty.

"What!" exclaimed the astonished judge. "What does this mean? If the man has not been murdered how can the prisoner be guilty?"

"Please, your honor," said the foreman, "he's guilty. He stole my bay mare three years ago."—Omaha World-Herald.

AUTO RACES ARE NOW ASSURED.

* * *

(Continued from First Page.)

the officials is Alfred Reeves, to whom is due credit for the phenomenal success of the automobile show which has just closed in New York. Amos Batchelder and Sam'l Miles, who are leading spirits of the motor world, will assist, and the intricate work of timing the cars and determining the records will be under the supervision of S. M. Butler, secretary of the Auto Club of America and C. F. Dreges of the N. Y. Timers Club.

A few days will bring word from S. F. Edge, England's most noted auto racing man, promising the big Fiat and Napier racers, which are capable of reeling off 150 miles an hour.

D. D. and C. M. Rogers are now making plans for a course of 25 miles on the beach, making the turns at the inlet and at Seabreeze near the Clarendon hotel. Grandstands will be erected and the approaches to the beach improved and enlarged. The beach will be so carefully patroled that all danger to spectators will be absolutely eliminated and the races will be so arranged that they can be seen and enjoyed without difficulty by all.

As the week of March 22nd has been selected for the Daytona races the dates of the Palm Beach National Motor Boat contests have been changed so that they will come the week previous and arrangements are being made to bring the crowds from Palm Beach to Daytona.

Additional subscriptions have been secured as follows, making the total sum $1,300.00.

Cook Auto Co. $10; Chas. F. Burgman $25; H. G. Wilson & Co. $10; J. E. Williams $5; S. W. Carroll $20; Ernest Mills $15; W. M. Shaffner $10; J. H. Fraser $10; F. W. Pope $10; L. E. Team Sprints From Club House.

A team, belonging to the Johnston livery, of Seabreeze, broke away from a Mr Thayer, at the Automobile Club House, at Daytona Beach, Friday afternoon, and with Mr Thayer in hot pursuit ran west on Halifax avenue to Florida street, where they were stopped somewhere between the Goodall place and Seabreeze avenue by an automobile party consisting of J. Mortimer Smith, Hubert Smith and H. C. Thompson, in the latter's car. The party saw the driverless team approaching and stopped the automobile in the center of the roadway, causing the horses to come to a halt. No damage whatever resulted beyond that to Mr. Thayer's feelings.

Harry Thaw Out On Writ.

[By United Press.]

POUGHKEEPSIE N. Y., Jan. 9—Harry K. Thaw and Lawyer Morchauser left Mattewan for New York today, where a new writ of habeas corpus has been obtained by Mrs. William Thaw The writ is returnable before Justice Hopkins.

Killed in Auto Accident.

(By United Press.)

NEW YORK, Jan. 9—Edward Colt Gilman, of Flushing, was killed and Miss Jeanette McKinne, Miss Dorothy Whittle and James Crammon badly injured in an automobile wreck early today. The occupants of the machine were thrown against a tree when a wheel of the car slipped from the axle.

A Very Hefty Shaddock.

One of the largest and finest specimens of pomelo, shaddock, grapefruit or whatever your taste and fancy may induce you to call it lies on the editorial desk. The handsome specimen was grown by J. N. Davis, of Grand Rapids, Mich., at his Ridgewood home, No. 330 South.

It would remind you of a Thanksgiving pumpkin grown in the Ohio valley, measuring nearly twenty-six inches around the girth while from pole to pole it measured a little better than twenty-three inches.

The Devilfish In Action.

A naturalist who observed devilfishes in action says that he thought no more diabolical creature could be imagined. They resembled enormous bats and in following one another around in a circle raised the outer tip of one of the long winglike fins high out of the water in a graceful curve, the other being deeply submerged. They might be seen now gliding down with a flying motion of the wings, sweeping, gyrating upward with a twisting vertical motion marvelous in its perfect grace; now they flashed white, again black, so that one would say they were rolling over and over, turning somersaults. While swimming along the two great arms or feelers of the devilfish are whirled about in constant motion, like the tentacles of a squid. When these tentacles come in contact with anything they close upon it. It is generally believed that this clasping, although at times doing considerable harm to fishermen and their boats, is largely automatic and that, upon the whole, the devilfish is timid rather than a fighter.

The Rust of Custom.

The bitterness toward innovation is just the same in an army as out of it, but perhaps with more reason. A new thing cannot possibly be accepted until it has proved itself better than that which it displaces. The first cannons were possibly rejected, and the Christian inventor took them to the Turk, who used them at the siege of Constantinople. The first firearms were bitterly opposed because they destroyed the soldierly bearing of the troops. The British navy strenuously objected to the first large guns because one charge would cost as much as one of Nelson's broadsides. Ericsson's Monitor met with more opposition in Washington than it did in Hampton Roads. At the outbreak of the civil war it is said that congress ordered the adoption of the new weapon, over the objection of the chief of ordnance, who kept a specimen of the old one in his office to show visitors how good it was.—Army and Navy Life.

Living Lights of the Sea.

One of the marine curiosities fished from the bottom of the Indian ocean by a dredging vessel chartered by the Calcutta Society of Natural History was a mammoth sea crab, which continually emitted a bright white light, similar to that seen in the spasmodic flashes of phosphorescent luminosity kindled by the common fireflies. The oddity was captured in daytime and placed in a large tank, nothing peculiar except its immense size being noticeable in the broad glare of the tropical sun. At night, however, when all was in pitchy darkness, the crab surprised the naturalists by lighting up the tank so that all the other sea creatures, great and small, occupying the same tank could be plainly seen. When the luminous crustacean was prodded with a pole he emitted flashes of light, which enabled the experimenters to read small print, even though otherwise they were in total darkness.—London Chronicle.

He Was Guilty.

The great Irish agitator, Daniel O'Connell, was at one time defending a man accused of murder at Clonmel. The circumstantial evidence was so strong against the prisoner that the jury had already determined upon their verdict of guilty, when the man supposed to have been murdered was brought into court, alive and unhurt. The jury were desired to return their verdict at once, and they did so, but it was one of guilty.

"What!" exclaimed the astonished judge. "What does this mean? If the man has not been murdered how can the prisoner be guilty?"

"Please, your honor," said the foreman, "he's guilty. He stole my bay mare three years ago."—Omaha World-Herald.

AUTO RACES ARE NOW ASSURED.

(Continued from First Page.)

the officials is Alfred Reeves, to whom is due credit for the phenomenal success of the automobile show which has just closed in New York. Amos Batchelder and Sam'l Miles, who are leading spirits of the motor world, will assist, and the intricate work of timing the cars and determining the records will be under the supervision of S. M. Butler, secretary of the Auto Club of America and C. F. Dieges of the N. Y. Timers Club.

A few days will bring word from S. F. Edge, England's most noted auto racing man, promising the big Fiat and Napier racers, which are capable of reeling off 150 miles an hour.

D. D. and C. M. Rogers are now making plans for a course of 25 miles on the beach, making the turns at the inlet and at Seabreeze near the Clarendon hotel Grandstands will be erected and the approaches to the beach improved and enlarged. The beach will be so carefully patroled that all danger to spectators will be absolutely elimininated and the races will be so arranged that they can be seen and enjoyed without difficulty by all.

As the week of March 22nd has been selected for the Daytona races the dates of the Palm Beach National Motor Boat contests have been changed so that they will come the week previous and arrangements are being made to bring the crowds from Palm Beach to Daytona.

Additional subscriptions have been secured as follows, making the total sum $4 300.00.

Cook Auto Co. $10; Chas. F. Burgman $25; H. G. Wilson & Co. $10; J. E. Williams $5; S. W. Carroll $25; Ernest Mills $15; W. M. Shaffner $10; J. H. Frazer $10; F. W. Pope $10; L. E. Team Sprints From Club House.

A team, belonging to the Johnston livery, of Seabreeze, broke away from a Mr Thayer, at the Automobile Club House, at Daytona Beach, Friday afternoon, and with Mr. Thayer in hot pursuit ran west on Halifax avenue to Peninsula drive, when they were stopped somewhere between the Goodall place and Seabreeze avenue by an automobile party consisting of J. Mortimer Smith, Hubert Smith and H. C. Thompson, in the latter's car. The party saw the driverless team approaching and stopped the automobile in the center of the roadway, causing the horses to come to a halt No damage whatever resulted beyond that to Mr. Thayer's feelings.
